(2) Please change the paragraph beginning on page 2, line 10¹⁰ 18 as follows:

To overcome the above shortcomings, various graphical programming environments now exist which allow a user to construct a graphical program or graphical diagram, also referred to as a block diagram. U.S. Patent Nos. 4,901,221; 4,914,568; 5,291,587; 5,301,301; and 5,301,336; among others, to Kodosky et al disclose a graphical programming environment which enables a user to easily and intuitively create a graphical program. Graphical programming environments such as that disclosed in Kodosky et al can be considered a higher and more intuitive way in which to interact with a computer. A graphically based programming environment can be represented at a level above text-based high level programming languages such as C, [[Basic]] BASIC, [[Java]] JAVA, etc.

(3) Please change the paragraph beginning on page 9, line 18 as follows:

U.S. Patent Application Publication No. [[_____]] 2003/0145280 (Serial No. 10/056,853) titled "Test Executive System Having XML Reporting Capabilities," filed January 25, 2002.

IN THE CLAIMS:

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently Amended) A non-transitory computer accessible memory medium storing program instructions executable by a processor to:

receive from a requesting program a request to determine an invocation interface of a graphical program, wherein the invocation interface is usable to invoke execution of the graphical program, wherein the graphical program is stored on a first computer

1. This action is in response to the amendment filed on 1/13/2011.
2. Claims 1, 3-13, 15, 18-28 have been amended.
3. Claims 2, 14, 16-17, have been canceled.
4. Claims 3 and 7 have been canceled (See Examiner's Amendment).
5. Claims 1, 4-6, 8-13, 15 and 18-28 are allowed.

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey C. Hood (Reg. No. 35198) on 2/28/11.

7. The application has been amended as follows:

IN THE SPECIFICATION:

Change(s) applied

- (1) Please change the paragraph beginning on page 1, line 1³~~5~~ as follows:

Traditionally, high level text-based programming languages have been used by programmers in writing application programs. Many different high level text-based programming languages exist, including BASIC, C, [[Java]] JAVA, FORTRAN, [[Pascal]] PASCAL, COBOL, ADA, APL, etc. Programs written in these high level text-based languages are translated to the machine language level by translators known as compilers or interpreters. The high level text-based programming languages in this level, as well as the assembly language level, are referred to herein as text-based programming environments.
